TECH SKILLS

HTML | CSS | UI

Confident in: Creating static web content according to given UI guidelines. Also confident in creating designs and solutions from scratch, according to given requirements.

Javascript | React

Confident in: Building interactive, modular systems and products, including single-page applications. State management, routing, debugging, testing, etc.

Node.js | Express | Socket.io

Confident in: building simple backend systems, creating and interacting with REST API's, databases, session and authentication setups, basic deployment flows, real-time networking.

- Further tools I work with regularly: **Git/Github, MongoDB, Figma, Photoshop, Spreadsheets.**
- Some I've worked with occasionally: Gatsby, Jest, Postman, Bootstrap.
- Some I'd like to work with: React Native, Framer Motion, Three.js, IPFS.

RECENT PROJECTS

'Port': A chat system with a sleek design and a fun live-writing feature [[Link](#)]

- I designed and built the fluid, dark-only UI, forgoing preset libraries and putting special attention to the custom-built CSS animations to express its unique visual identity.
- I architected the backend using Node and MongoDB among others, and expanded my knowledge of Websockets to implement advanced features such as user statuses and live writing.

Tana's artist showcase [[Link](#)]

- I worked with the artist to design a fully-featured modern website that would, however, let the artworks be front and center. I completed the assignment in two weeks.

EDUCATION

2020

Web Development | April 2020 - December 2020

Full-time, Fullstack curriculum under tutelage from my mentors.

2020

Online Marketing & Web Development | November 2019 - January 2020

Digital Career Institute, Leipzig. Introductory course.

2013

Bachelor's degree in Graphic Design | September 2009 - January 2013

EASD Valencia (Official Design College of Valencia, Spain)

WORK

Graphic Designer | Freelancer | February 2013 - March 2020 | [[Sample works](#)]

- I consistently delivered concepts, designs and strategies to satisfied clients. My work included creating posters, logos, infographics and illustrations.
